■ Lidt om EK Kæder

Enuma Chain blev etableret i 1941 som et almindeligt kædeproduktionsfirma, med hovedkvarter i Kaga, på Japans vestkyst. I 1974 lavede Enuma Chains verdens første O-rings kæde. Kvalitet er et krav hos Enuma Kæder. Firmaet blev ISO 9001 certificeret i 1997. Denne certificering fås kun når standarden og kvaliteten på systemer og kvalitet er i orden. Research og udvikling hos Enuma Kæder har altid været i højsædet, der er udviklet specielle og originale tanker og ideer. Deres udvikling af O-ring forseglingen er baseret på mange års udvikling, og eksperimentering.

■ Lite om EK Kedjor

Enuma Chain blev etableret 1941 som ett kedjeproduktions företag, med huvudkontor i Kaga, på Japans västkust. År 1974 levererade Enuma Chain världens första O-ring kedja. Kvalitet är ett krav hos Enuma kedjor. Enuma Chain blev ISO 9001 certifierad 1997. Denna certifiering fås när standarden och kvaliteten är i sin ordning. Research och utveckling hos Enuma kedjor har alltid varit högsta prioritet. De utvecklar via speciella och original tankar och idéer. Deras utveckling av O-rings forseglingen är baserat på många års utveckling och experiment.

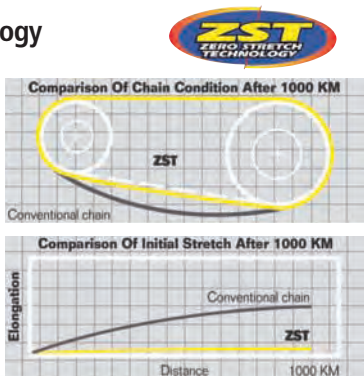

■ Zero Stretch Technology

EKS eksklusive Zero Stretch Technology reducerer kæde-strækningen til næsten 0 på de første 1000 km i brug. EK ZST teknologi eliminerer ikke kun justeringen på de første 1000 km brug, men er også medvirkende til at minimere slidet i hele kædens levetid. EK ZST teknologi er standard på 530ZZZ kæden, og kan fås på 520RXO kæden samt hele MVXZ kæde serien.

■ Zero Stretch Technology

EKS exklusiva Zero Stretch Technology reducerar kedje-sträckningen till nästan 0 på de första 1000km i användning. EK ZST teknologin eliminerar justeringen de första 1000km men medverkar också till att minimera förslitning i hela kedjans livstid. EK ZST teknologin är standard på 530ZZZ kedjan, och kan fås på 520RXO kedjan samt hela MVXZ kedja serien.

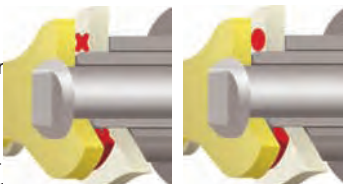

■ Quadra-X Ring

EKS kæder tilbyder dig en kæde du ikke finder andre steder. Quadra-X ringens design reducerer friktionen med helt op til 40 %, på grund af et væsentligt mindre kontakt område. X-ringens 4 punkter hvor den rører, giver også en bedre forsegling end konventionelle O-ringe.

■ Quadra-X Ring

EKS kedja ger dig en kedja du inte finner hos andra märken. Quadra-X ringens design reducerar friktionen upp till 40 %. På grund av ett väsentligt mindre kontaktområde. X-ringens 4 punkter ger också en bättre forsegling än konventionella o-ringar.

■ Kædepins behandling

EK kædernes pinde er behandlet så de har en usædvanlig hård coating på ydersiden, og en blødere inderkerne, der gør dem væsentligt stærkere og reducerer kædens slid. Krom Karbid pindenes overflade behandling yder også en overlegen modvirken mod chok behandling og reducerer slid opstået fra naturens side.

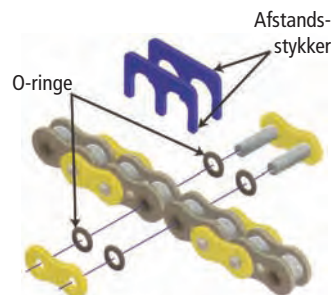

■ Kejdepinnens behandling

EK kedje pinne är behandlat så den har en ovanligt hård yta på utsidan och En starkare innerkärna gör dem väsentligt starkare och reducerar kedjans slitage. Krom Karbid pinnens överdrags behandling ger en överlägsen motverkan mot chockbehandling och reducerar slitage som uppstår från naturens sida.

■ QX-Ring og O-Ring afstandsstykker

Sammen med alle O-rings- og Quadra-X Rings kæder er et sæt afstandsstykker der kan modvirke slid på O-ringene, under isætningen af samleledet. Disse afstandsstykker har den korrekte afstand mellem inder- og yderpladerne. Dette medfører at O-ringene og X-ringene ikke kommer under unødigt pres.

■ QX-Ring och O-Rings avstånds stycke

Samma med alla O-Rings och Quadra-X Rings kedjor är ett set med avståndsstycke som motverkar slitage på O-ringen under montage av leden. Dessa avståndsstycken har det korrekta avståndet mellan inner och ytterplattorna. Detta medför att O-ringen och X-ringen blir monterat på rätt sätt och inte kommer under onödigt press.

■ EK standard og alternative samleled

Visse af EK kæderne I dette katalog kan fås med forskellige slags samle led. Fælles for dem alle er, at de er nemme at samle, men nogen kræver (som MLJ kæden, NITTE type) dog brug af et specielt nitte værktøj. For at finde ud af hvilket samle led der er standard med din kæde, skal du se i oversigtskemaet over hver enkel kæde.

MLJ: Nittetype

MLJ samle ledet er det mest brugte samle led, brugt på gadecykler.

SKJ: Cliptype

SKJ ledet er meget nemt at samle og minder meget om det standard SPJ led. SKJ ledets trykplader kræver ekstra tryk, for at kunne presses over samle pindene, men yder væsentlig bedre sikkerhed. Sidder standard på mange motocross, off-road, ATV og drag racing.

Er nem at montere med standard samle led.

SPJ: Clipstype

Nem at montere. Leveres i standard med en ikke forseglede let kæde.

SLJ: Screw type

SLJ kæden er nem at montere, og et godt alternativ. Patenteret system, der sikrer nem montering med en skruenøgle.

PL: Pin Link

Pin ledet er et udvendigt led, der kræver et specielt værktøj for montering. Der er ingen clips for en nem montering. Specielt værktøj fra EK kan ikke fås fra EK til denne type link.

■ EK standard och alternative länkar

Vissa av EK kedjorna i denna katalog kan fås med samma slags länkar. Gemensamt för dem alla är att de passar i varandra men kräver (Som MLJ kedjan, nit typ) som används med ett speciellt nitverktyg. För att finna ut vilken lås som är standard på din kedja, skall du se i översiktsschemat över på din kedja.

MLJ: Nit typ

MLJ leden är det mest vanligaste leden, används på gatcyklar.

SKJ: Clip typ

SKJ lås är en mycket vanlig lås som används som standard på SPJ kedjor. SKJ låsens tryckplattor kräver extra tryck för att kunna pressas samman över kedjepinnen, men ger väsentlig bättre säkerhet. Sitter som standard på många motocross, offroad, ATV/Quads och drag racing fordon. Är enkelt att montera på standard kedjor.

SPJ: Clips typ

Enkelt att montera. Levereras standard ej forseglad kedja.

SLJ: Screw-type

Kedjan är enkel att montera och är ett bra alternativ. Patenterat system med en säker montering med skruvnyckel.

PL: Pin Link

Pin leden är en utvärdig led som kräver ett speciellt verktyg för montering. Det finns inget clips för denna montering. Speciellt verktyg från EK kan inte fås från EK till denna typ av länk.
